Photo of the Month:

Pilots, young and old, - A thorough pre-flight is essential!

NOTE: All who attend Oshkosh: If you get any good photos, please submit them for photo of the Month. Thanks

Presidents Message:

Aaron Wypyszynski – EAA # 579057

We had a great trip last month to Griffon Aerospace. A huge thanks to Glen for setting the event up and for Griffon Aerospace for letting the chapter come over. It was a great chance to see composite aircraft manufacturing from start to finish. Aircraft were in every stage of completion and it was a great opportunity to get a look at all of the machines.

This month we will have our Chapter meeting and Pancake breakfast but no other activities due to Oshkosh. At the chapter meeting we will discuss the exciting events that are going on at Oshkosh this year. We may also have a presentation this month, so stay tuned. We will be short

staffed at this month's pancake breakfast due to a large number of members heading up to Oshkosh. If you will be in town and the weather is looking good, please swing by and give a hand, especially parking planes.

For those of you going to Oshkosh, let me know! I will be up there for the whole week and would love to catch up with all the chapter members who will be attending. I will also be giving two forums during the week, Recruiting Young Eagles Pilots (Thursday, July 23 · 8:30 AM - 9:45 AM in Forum 1) and one on my WingBoard Project (Friday, July 24 · 4:00 PM - 5:15 PM). Make sure to take plenty of pictures while you are in Oshkosh as we will be having a picture sharing event at our August chapter meeting.

Hope to see you at one of this month's activities!

Activity	Date	Time	Location
Fly-In Planning	Tuesday July 14 th	6:00pm	Moontown FBO
Chapter Meeting	Tuesday July 14 th	6:30pm	Moontown FBO
Moontown Pancake Breakfast	Sat. July 18 th	8:00-9:30am	Moontown FBO
Airventure (Oshkosh)	Mon July 20 th – Sun July 26 th	All Day	Oshkosh, WI (KOSH)

Minutes of Last Meeting:

Charles P. Cozelos – EAA # 63381

EAA Chapter 190 Meeting 16 June 2015

Members in attendance:

Andrea Atwood
 Hannah Brock
 Todd Brooks
 Charles P. Cozelos
 Michael Dunning
 Jeff Geram
 Kevin MacQuinn

Pete Stockey
 Aaron Wypyszynski
 Chris Davis
 Evangela Caliguire
 Wendy Caliguire
 Mejhan Krampf
 Patricia Stockey

Carl Mann
 Gage Linerry
 Glen Kyser
 Tevra Harris
 Tony Eranford

Call to Order:

4:34 pm. At Griffin Aerospace

The minutes as posted in PROPWSH were accepted.

The Treasurers Report as posted in PROPWASH was accepted.

Short business meeting due to tour of the Griffin Aerospace facility.

Meeting Adjourned:

4:48 pm.

Treasurers Report:

Bryan Tauchen - 651954

June Treasurers Report

Date		Dep	Check	Balance
6/1/2015	Balance			23,525.19
6/25/2015	Breakfast (509. gross - 195 exp - 200 band)	114.00		23,639.19
6/25/2015	E Caliguire - reimburse extra airfare		45.00	23,684.19
6/30/2015	Ending Balance			23,684.19

Safety:

Wes Conkle – EAA # 633811

Young Eagles:

Aaron Wypyszynski – EAA # 579057

F-35 Gets New Estimated Cost

Pentagon cuts forecast for fuel expenses, reducing likely price of flying the fighter
 Wall Street Journal, Mar. 20, Pg. B3 | Doug Cameron

The Pentagon has reduced the long-term planning price for fuel costs, helping lop billions of dollars from the estimated cost of flying the F-35 Joint Strike Fighter.

Jet builder Lockheed Martin Corp. and its partners in the F-35 program are investing \$170 million over two years to cut the cost of each plane, but the change in the fuel-price assumption has shaved several million dollars from the operating cost of each aircraft.

The F-35 program office said in March that its estimate for the lifetime cost of operating thousands of the jets fell to \$859 billion, down \$57.8 billion from a year earlier. The drop reflected lower forecasts for maintenance and repair, improved fuel consumption as well as billions of dollars from the revised oil-price assumptions.

The Pentagon reset its long-term fuel price forecasts in early February, according to the Defense Energy Support Center, and the F-35 program office said this was incorporated in its own new estimates for the jet's operating cost.

The drop in global oil prices will provide a windfall to the Pentagon, which spends around \$15 billion a year buying petroleum products on the open market. It sells fuel to each branch of the military at set prices, and any difference with the market price is absorbed by its Defense Working Capital Fund. When prices drop, the fund goes into surplus and uses this to set lower prices in future years.

A Pentagon spokesman wasn't immediately able to provide details of the new fuel-price assumptions.

The estimated cost of buying more than 2,400 F-35 jets fell by \$7.7 billion to \$331.6 billion, compared with a year earlier. The purchase price of each plane in the latest deal negotiated with Lockheed and engine maker Pratt & Whitney is \$108 million for the A model being

bought by the U.S. Air Force and a number of American allies. That is \$4 million less than the previous batch. This excludes research and development costs.

The Pentagon is negotiating with Lockheed and Pratt & Whitney, a unit of United Technologies Corp., for another two batches of aircraft. It hasn't disclosed how many planes are involved.

Lockheed, Pratt and partners including Northrop Grumman Corp. and BAE Systems PLC aim to cut the purchase price of the jet to around \$80 million by the end of the decade.

The disclosures came as the Pentagon said the estimated cost of its biggest weapons programs fell slightly last year to \$1.62 trillion, though much of the decrease reflected assumptions about lower future inflation.

The report is closely watched as an indicator of the Pentagon's effort to improve the efficiency of the way.
