**Presidents Message:**

Aaron Wypyszynski – EAA # 579057

It has been a very busy month for many of the Chapter members. Unfortunately due to some very busy schedules, we are a bit behind on activities this month. Our Chapter meeting this month will take advantage of the lull to discuss summer plans, the Annual Fly-In, and get an update on some of the members build projects. We are lining up a slew of great presentations for the next two months though so stay tuned! Also, please make sure to verify the meeting location on the Website and Facebook page as some of our meetings will be at other locations. Our upcoming presentations are:

- May: Pietenpol Build Project Visit

- June: Alternative Engines

If you have any suggestions for chapter events and would like to coordinate them, please let us know. Due to chapter Officers' busy schedules the last few months and upcoming months, we can use your help!

Hope to see you at one of this month's activities!

Jesse Jones

#### Call to Order:

6:44 pm

#### Old Business.

Minutes from last month's meeting as posted in PROPWASH were posted.

The January Treasurers Report as posted in PROPWASH was presented last month by Bryan.

Aaron stated that we will be sending out a ballot for the new member of the Board of Directors.

The instillation of the hood for the Kitchen is being worked on and a quote for the work will be presented at the next meeting.

Women of Aviation was last weekend at MDQ. The chapter participated, and 6 Young Eagles were flown.

#### New Business.

On Young Eagles: The program is continuing although several chapters have chosen not to participate any longer due to a feeling that the new requirement that *anyone* involved in the program is now required to take the “Youth Protection Program”.

Young Eagles Scholarship: The chapter has decided to do it again this year. After discussing the budget, it was decided to select one Young Eagle for the scholarship to “Aviation Academy” held at OSH during OSH.

**Meeting Adjourned:** 6:51 pm.

After the meeting Bob Luther presented a slide show and discussion on his Stenson Voyager restoration project, from him finding it in Portland Oregon, to its present state, as it sits in his hanger.

## Treasurers Report:

## Young Eagles:

Aaron Wypyszynski – EAA # 579057

## Next Generation of Pilots:

Hannah Brock – EAA # 1018039.

I usually get my flying lesson when we have the breakfast on the 3<sup>rd</sup> Saturday, however last month I didn't. Thanks OK, because my teacher, Mr. Brooks was the only pilot who could fly Young Eagles, and he brought out his Robinson Helicopter. WOW!

Some of our lessons have been about parts of the engine, like the carburetor and we've used his helicopter to climb up in the engine and look real close at things, so it was so cool to actually get to fly in it. Be size; I love helicopters!!!!

I thought there was a lot to do before I take off in “Juliet-Charlie”, but there is even more to do in a helicopter. It was a little scary just as we lifted off and hovered right there about a foot above the ground for about a minute. Then we hover-taxed out to the runway and whoosh up we went. Wow, now that’s so neat.

We flew over the woods and I loved how close to the ground we were, much closer than I am in the C-172. I could see so much more. Looking down on the woods you can see so much more than when you are on the ground and trying to look through them. Mr. Brooks told us that sometimes he can see hunters walking through the woods and a deer will be following them.

We flew over some houses before coming back to 3M5. I could see people right below us like I was in their yard, but it was like they didn’t know we were there, they never looked up. Then it was back to the airport. We flew our approach just like in an airplane, but we didn’t touch down, we just went down the runway a little bit and then just stopped. Without ever touching down, we were still a couple feet above the runway. Mr. Brooks then took the helicopter over to where we started and set it down. How neat is that?

Now I love helicopters even more and can't wait to ride in more of them, but for now, I will keep working on learning how to fly the airplane.
